POSIFLEX SD200 (2-in-1) Integrated MSR for Aloha

Lone Tree's Finger Print ID System with POSIFLEX SD200 (2-in-1) integrated MSR is now available for Aloha. This SD200 provides either two-track or three-track USB MSR with DigitalPersonal U.are.U 4000 fingerprint scanner. Combined with POSIFLEX JIVA 5815 G version touch terminal and Lone Tree's Finger Print ID System for Aloha, it is a proven performer in the hospitality industry!

Key Features:

Lone Tree Finger Print ID System Version 2.0

- High performance - works with all POS platforms that support USB. Great enhancement to POSIFLEX JIVA 5800 G version touch terminal, the fingerprint takes 1.5 to 2 seconds to process
- Easy to install - no need to setup environment variables or load additional drivers!
- Allows employees to be configured to use both Mag Card and Fingerprint ID if desired
- Support Hot Swapping of Hardware
- Provides Performance Statistics

POSIFLEX SD200 (2-in-1) Integrated MSR

- Optical fingerprint sensor in USB interface
- Two and three track MSR options
- Works well with dry, moist, or rough fingerprint
- Encrypted image data
- Easily removed from the main unit for improved serviceability
